S. Army today. This may represent a period of remission rather than the apparent abandonment of the mission. It is possible that the U. S. military may again become engaged in counterinsurgency support in the future. In this study, Steven Metz argues that the way the Department of Defense and U. S. military spend the time when counterinsurgency support is not an important part of American national security strategy determines how quickly and easily they react when policymakers commit the nation to such activity. If analysis and debate continues, at least at a low level, the military is better prepared for the reconstitution of capabilities. If it ignores global developments in insurgency and counterinsurgency, the reconstitution of capabilities would be more difficult. Today, there is no pressing strategic rationale for U. S. engagement in counterinsurgency but history suggests that if the United States remains involved in the Global South, one may emerge. American counterinsurgency strategy has unfolded in a distinct pattern over the past 50 years. At times, policymakers saw a...
