Pursuant to a congressional request, GAO reviewed the Armys award of the Reserve Component Automation System (RCAS) contract, focusing on: (1) whether the Army complied with applicable acquisition laws and regulations; and (2) the Armys justification for awarding the contract to a higher bidder. GAO found that the: (1) Army properly followed applicable laws and regulations and performed a proper cost and technical analysis; (2) Armys source selection authority properly prepared the necessary pre-solicitation and solicitation documents including an acquisition strategy, acquisition plan, and a source selection plan; (3) Army listed the five evaluation factors in order of priority and noted that the successful contractor would be the one that provided the best cost and technical capabilities; (4) Army solicitation clearly communicated the priority of technical capabilities over cost concerns; (5) Army properly determined that the awardees proposed system more than offset its higher bid; and (6) procurement fully conformed with the source selection plan and the Army provided adequate information to all prospective offerers in the solicitation.
