Alphascript Publishing. Taschenbuch. Book Condition: Neu. Neuware - A catboat or a cat-rigged sailboat, is a sailing vessel characterized by a single mast carried well forward. Although any boat with a single sail and a mast carried well forward is 'technically' a catboat, the traditional catboat has a wide beam approximately half the length of the boat, a centerboard, and a single gaff-rigged sail. Some catboats such as the Barnegat Bay type and more modern catboat designs carry a Bermuda sail. A jib is sometimes added, but this may require a bowsprit, and technically creates a sloop sail-plan. It is generally accepted that the origin of the catboat type was in New York around 1840 and from there spread east and south as the virtues of the type simplicity, ease of handling, shallow draft, large capacity were discovered 68 pp. Englisch.
