Account of Experiments for determining the Length of the Seconds Pendulum, and the Specific Gravity of Water. By Jons S VanBerg. Translated from the Swedish Transactions, 1S25. i. It is an object of the highest importance to every civilised community, not less in a commercial than in a scientific point of view, that all the original units of their system of measures and weights should be secured, even to an ideal degree of perfection, against the gradual alterations, which must unavoidably be introduced, in the successive copying of the standards. In order to attain this object, there is no other way to be found, than by ascertaining, in the first place, by means of accurate experiments, the relations of these units, which have commonly been assumed from an arbitrary origin only, to some natural and unalterable magnitude of the same kind; and fixing, in...
